

COMBINATION THERAPY IN ONCOLOGY: NOVEL TRENDS

IV International Conference in Memory of Academician A.F. Tsyb

«COMBINATION THERAPY IN ONCOLOGY:
NOVEL TRENDS»

IV INTERNATIONAL CONFERENCE
IN MEMORY OF
ACADEMICIAN A. F. TSYB
FRIDAY, 27 SEPTEMBER 2019
10:00 - 18:00 H

A. TSYB MEDICAL RADIOLOGICAL
RESEARCH CENTER
KOROLEVA STREET 4
249036 OBNINSK
RUSSIA

Combination Therapy in Oncology: Novel Trends

IV International Conference in Memory of Academician A. F. Tsyb

Understanding How Stress Affects Immune Suppression, Tumor Growth and The Efficacy of Immunotherapy and Radiation Therapy*Elizabeth Repasky (Buffalo, USA)***Immunotherapy of Cancer Diseases – Present and Future***Roman Ivanov (St. Petersburg, Russia)***Current Radio-Molecular Targeted Therapy as Evolutionary Precision-Treatment***Georgios Lymouris (Athens, Greece)***Molecular Microscopy: Role and Significance in Personalized Diagnostics and Target Therapy of Tumors***Igor Kvetnoy (St. Petersburg, Russia)***Stemcells. Our Experience in the Application in Oncologic Patients***Lyudmila Grivtsova (Obninsk, Russia)***Radioiodine Therapy for Thyroid Cancer. Modern European Recommendations and Trends***Jasna Mihailovic (Sremska Kamenica, Serbia)***Radio-Omics – A New Approach of Quantitative Imaging in Radio-Oncology***Fridtjof Nuesslin (Munich, Germany)***Prerequisites of a Clinical Theranostics Department – PET/Radionuclide Therapy Applications in Routine Practice***Kalevi Kairemo (Helsinki, Finland)***Combination of Hyperthermia, Chemo- and Radiotherapy in Various Tumors***Rainer Fietkau (Erlangen, Germany)***Integration of Pencil Beam Scanning Proton Therapy and Hyperthermia: The University of Maryland Clinical Experience***Zeljko Vujaskovic (Baltimore, USA)***Phase III Study in Pancreatic Cancer and Treatment Approach of Triple Negative Breast Cancer***Sultan Abdel-Rahman (Munich, Germany)***Management of Locally Recurrent Breast Cancers with Local Hyperthermia and Radiotherapy: A Systematic Review and Meta-Analysis***Niloy Datta (Aarau, Switzerland)***Beneficial Effects of Hyperthermia in Cancer Patients***Jacoba van der Zee (Rotterdam, The Netherlands)***Hyperthermia as Immune Modulator in Multimodal Tumor Therapies – Immune Biological Rationale***Michael Hader (Erlangen, Germany)***Rationale and Acceptance of Temperature Controlled Hyperthermia in Advanced Oncologic Therapy***Rainer Rienmueller (Graz, Austria)*

CHAIRS

Andrey Kaprin MD PhD

Director-General of «NMRRC» of the Ministry of Health of Russia

Sergey Ivanov MD

Director of A.F. Tsyb Medical Radiological Research Center

SPEAKERS

Elizabeth Repasky MD PhD

Department of Immunology, Roswell Park Cancer Institute

Roman Ivanov MD PhD

Deputy Director, Head of Research and Development Department, BIOCAD

Georgios Lymouris MD PhD

National and Kapodistrian University of Athens

Igor Kvetnoy PhD

Head Department of Pathomorphology, Ott Research Institute of Obstetrics, Gynecology and Reproduction

Lyudmila Grivtsova PhD

Head Department of Laboratory Medicine, A.F. Tsyb Medical Radiological Research Center

Jasna Mihailovic PhD

Head of Center for Nuclear Medicine, Oncology Institute of Vojvodina

Fridtjof Nuesslin MD PhD

Department of Radiation Oncology, Technical University Munich Klinikum Rechts der Isar

Kalevi Kairemo MD PhD

Department of Theranostics, Docrates Cancer Center

Rainer Fietkau MD PhD

Director of the Radiation Therapy Clinic, Erlangen University Hospital

Zeljko Vujaskovic MD PhD

Director of Division of Translational Radiation Sciences, Department of Radiation Oncology, University of Maryland

Sultan Abdel-Rahman

Department of Medical Oncology, University Hospital Munich Grosshadern

Niloy R. Datta MD PhD

Department of Radiation Oncology, Kantonsspital Aarau

Jacoba van der Zee MD

Department of Radiotherapy, Erasmus Medical Center

Michael Hader

Radiation Immunobiology, Department of Radiation Oncology, Erlangen University Hospital

Rainer Rienmueller MD PhD

Foreign member of the Russian Academy of Sciences
